

*Vision, Comfort, Protection.*

American Standard Window Film offers the technology of the future, for today's energy-conscious consumer.

## Sky™ 40

sky | ski | the celestial regions; the unlimited; an expanded view

The Sky series diminishes glare inside and out. This dual reflective film provides ultra-low reflectivity in low-light conditions. The dual nature also performs year-round, keeping you cool in the summer and warm in the winter.

### Benefits

- Dual reflective technology provides excellent nighttime vision looking out
- Superior heat reduction to increase comfort and minimize hot and cold spots
- Superior glare reduction to reduce eyestrain
- Provides energy savings through lower air conditioning costs
- Blocks 99% of ultraviolet rays to help reduce fading
- Durable, scratch resistant coating
- Manufacturer's warranty

### Window Film Performance Data

% Total Solar	
Reflectance	22%
Absorptance	42%
Transmittance	36%
% Visible Light	
Transmittance	37%
Reflectance: Interior	21%
Reflectance: Exterior	28%
% Ultraviolet Rejection	99%
% Glare Reduction	52%
Shading Coefficient	0.54
Solar Heat Gain Coefficient	0.45
% Total Solar Energy Rejection	55%
